

CSKL is built around a set of fundamentals showing that  
“Who we are is what we do.”

We will be showcasing those fundamentals week by week  
throughout the year and hope you will join us in exploring those.

---

## CSKL Fundamental #29

### **Be Proactive**

Solve problems *before* they happen by anticipating future issues,  
planning for contingencies, and addressing them in advance.

Work with appropriate lead times.
